Our Farm

The Original **Certified Organic Hemp Farm**

Bomar Agra Estates has a passion for hemp and offers some of the best grown hemp products that Colorado has to offer

We operate over 1,000 acres in San Luis Valley, Colorado to produce hemp biomass. Additionally, we partner with other local and national hemp farms in growing our seed genetics.

Our on-site capabilities, allow us to produce top grade, quality hemp material. Manufactures and extractors put our hemp biomass directly into their system for oil production. If you are interested in becoming a partnering farm - we will provide you with the full-solution.

Our Products

Ecosystem of Products

Bomar Agra Estates is USDA Certified Organic Industrial Hemp wholesaler located in Colorado. Operating over 1,000 farming outdoor acres and 100,000 sqft of indoor greenhouse space in San Luis Valley.

We offer quality [hemp biomass](#), [hemp seed](#), [hemp seedlings](#), and [hemp flower extracts](#) to wholesalers only. Bomar Agra Estates is legally registered with the [Colorado Department of Agriculture \(CDA\)](#) and [USDA Certified Organic Industrial Hemp Program](#). Our industrial hemp is grown using safe, organic farming practices.

CBD Hemp Biomass

[Hemp Biomass](#) is dense, seedless and contains a diverse terpene profile that is rich in flavor and high in therapeutic value. Designed to meet state regulations, we've isolated the best phenotypes for high production, while retaining legal levels of THC (at .3% or less). Bomar biomass includes a mix of [Cherry Flower](#), [Stormy D Flower](#), and [#5\(T1\) Flower](#). Our minimum order quantity (MOQ) is 100lbs.

CBD Hemp Seeds

Bomar has a proven track-record for producing the best quality [Feminized Hemp Seeds](#). Genetically stable and ready to plant, our industrial hemp strains have been isolated for high production. Hand selected by Bomar botanist for balanced terpene & cannabinoid production. Our CBD hemp seeds have a 99% germination rate and produce 13-20% in cannabidiol content, making them ideal for [industrial hemp farmers](#) looking for high yields, in a safe repeatable manner.

CBD Hemp Seedlings

We provide local farmers stable, pest free, high-performance [Feminized Hemp Seedlings](#) with 99% female to male lab certification. All of our seedlings are non-psychoactive containing less than 0.3% THC. We carry feminized hemp seedlings of [Cherry Blossom Seedlings](#) and [Stormy Daniels Seedlings](#) the best phenotypes for over 5 years to develop these rare strains. We performed greenhouse and farm trials and concluded when choosing a planting strategy for your beginning hemp farm.

CBD Hemp Extracts

Our high cannabidiol concentrates are balanced, pure and created to deliver the maximum value to the end user. The Bomar extraction partner specializes in creating [THC Free – Full Spectrum Extracts](#), [Isolated CBD](#), [Full Spectrum Distillates](#) and [Whole Plant Extracts](#). Discover why our extracts are known for their rich terpene profiles, balanced cannabinoid levels and premium grade quality.

Hemp Biomass

Hemp Biomass Overview

Bomar Agra Estates has strong relationships in the B2B hemp industry, hemp biomass refers to the dried plant matter that is used for the production of CBD oil

If you are a farmer growing hemp or looking for hemp biomass for sale to get into the lucrative CBD business, get in touch with us. Our hemp biomass comes with verified certificates of analysis by various Labs in Colorado.

USDA Certified Organic* Hemp Biomass

USDA Certified Organic Hemp Biomass grown in Blanca, Colorado. T1, Cherry, Putin's Problems and Stormy Daniels is an excellent choice for hemp extraction due to its high CBD content. Hemp biomass is commonly processed and extracted into plant-based supplements including CBD tinctures, capsules, and topicals. Organic biomass contains less than 0.3% THC.

[BUY NOW](#) 

*If you see the "USDA Organic" seal next to the essential oil, the items ingredients and the contents which means the product that contains 100 percent organic ingredients (excluding salt and water, which are considered natural), meaning free of synthetic additives like pesticides, chemical fertilizers and dyes, and must not be processed using industrial solvents, irradiation, or genetic engineering, according to the USDA.

Hemp Seeds

Hemp Seeds Overview

Bomar Agra Estates are known for the quality yield produced by our strains and the consistency of their harvest when grown properly

We live by the highest standards meaning we tap into the power of genetics and leverage efficient and innovative technologies to produce clean and pure, feminized seeds.

When starting your hemp farm for CBD oil after getting your hemp cultivator license then selecting and purchasing seed is the next step for hemp farmers. We partner with prospective farmers and manufactures to review their hemp goals. Along with help them selecting the correct seed for their operations.

We believe in full transparency with our hemp farming operations in Colorado, with our fellow farms, partners and establishing long-term relationships in the CBD hemp seed industry. All our feminized hemp seeds are verified with germination, feminized and CBD certificate of analysis reports to back all our seeds.

We believe in full transparency with our hemp farming operations in Colorado, with our fellow farms, partners and establishing long-term relationships in the CBD hemp seed industry. Hemp Seedlings

Hemp Seedlings Overview

Bomar Agra Estates has strong relationships in the B2B hemp industry, hemp seedlings refers to the starter plant that is used for the production of CBD oil

We carry feminized hemp seedlings of **Cherry Blossom Seedlings** and **Stormy Daniels Seedlings** this variety sets the standard for biomass production with plants up to 8 feet tall and weighing over 25 pounds at harvest. Pest resistant and early frost tolerant. Great for topicals and full spectrum oils aimed at body based therapeutic products.

We cultivate and process high quality organic CBD hemp seedlings in our state-of-the-art facilities in Blanca, Colorado.

We provide local farmers stable, pest free, high-performance feminized hemp seedlings in **Cherry Blossom Seedlings** and **Stormy Daniels Seedlings**.

All of our seedlings are non-psychoactive containing less than 0.3% THC. We chose only these two varieties and decided only these phenotypes for over 5 years to develop these most popular strains in Blanca, Colorado.

Our Early Season Hemp Seedlings is extensively cultivated in Colorado and is fully legal to purchase, process and resell.

Bomar Agra Estates offers compliant and tested hemp seedlings for sale in Colorado. We have the capacity and the experience to handle all types of orders regardless of volume. We also pride ourselves in offering the most favorable terms to hemp growers, eliminating the middlemen.

Our early seedlings are grown to go into the ground on last frost date for a true planting experience. These strains can take a late frost, and bitter winds while getting established.

Our Mid to Late Season Hemp Seedlings normally matures between 2-3 weeks from a family-strong brand with a commitment to excellence and transparency.

Our mid to late season hemp seedlings are grown to maximize CBD yield by maturing 2 – 3 weeks after our early season varieties in Blanca, Colorado. These strains can take a lot of humidity and moisture to minimize molds and mildew due to San Luis Valley climate.

We crossed only a few of these varieties with sativa plants to make the stems stiffer to reduce or eliminate staking. These plants have a longer growing season which is key for any hemp farmer and will tend to be more upright and sturdy making them uniform and a great candidate for high density planting or combine harvesting.

Hemp Seed Catalog

Cherry Blossom Hemp Seeds

Our **Cherry Blossom Hemp Seeds** is a cross between Cherry Blossom (She-Male) + Cherry Blossom (Female) this special variety was created with flowering time and cannabinoids of the potential of higher yield of Cherry.

BUY NOW 

1T Trump Hemp Seeds

Our **#5 T1 Trump Hemp Seeds** is a cross between The Wife (Male) + Afghan Skunk (Female). Afghan Skunk strain, a product of the pure indica, Afghani, and super stable Skunk genes. The Wife, known for its incredibly high CBD-to-THC ratio of any solid CBD hemp flower.

BUY NOW 

Stormy Daniels Hemp Seeds

Our **Stormy Daniels Hemp Seeds** is a cross between #5 (T1) Trump (She-Male) + Cherry Blossom (Female) strain. Stormy Daniels or Stormy D as others call it, is a high hemp cultivar which is derived from a true genetic cross between #5 T1 (Trump 1) and Cherry Blossom.

BUY NOW 

Putin's Problem Hemp Seeds

Our **Putin's Problem Hemp Seeds** is a cross between Cherry (Male) + #5 (T1) Trump (Female) this special variety was created with flowering time and cannabinoids of the #5 and has the potential of higher yield of Cherry.

BUY NOW 

Black Widow Hemp Seeds

Our **Black Widow Hemp Seeds** is a cross between Cherry (Male) + (T1) Trump (Female). The result is that Black Widow CBD is a very fast growing, but very strong. Cherry is an early finishing, bigger plant, while T1 adds formidable stem strength and an indica leaning growth structure.

BUY NOW 

Vishnya Hemp Seeds

We developed **Vishnya CBD Hemp Seeds** by crossing its best strains with very high-CBD plants Cherry (Male) + Cherry Blossom (Female). The result is that Vishnya CBD is a very fast growing, but very strong and hearty plant.
